Gurugram, Haryana, India

SUMMARY

Full Stack Software Engineer with 2+ years of experience building scalable web applications using **React.js**, **Node.js**, **SQL Server**, and **MongoDB**. Skilled in **REST APIs**, **CI/CD automation**, and **Azure-based solutions**.

EXPERIENCE

- ToFables Technologies** 10 2024 - Present
Associate Software Engineer Gurugram, India
 - Developed and enhanced an enterprise workforce and task management platform using **Next.js**, **React.js**, **Node.js**, **Express.js**, and **SQL Server**, supporting 500+ employees across onboarding, assignment management, resource planning, and operational workflows.
 - Designed and delivered 5+ modules for assignment management, employee onboarding, resource utilization, task tracking, and reporting dashboards used across multiple business teams.
 - Built and maintained **CI/CD pipelines** for web and API applications, reducing deployment effort by 70% and enabling faster, more reliable releases.
 - Implemented 10+ end-to-end automated test cases using **Playwright**, reducing manual regression testing effort by 60% and improving release quality.
 - Integrated **Azure Key Vault**, **Managed Identity**, and **Application Insights** to enhance application security, centralized secret management, and production monitoring.
 - Developed **EMQX-based MQTT** management features by building frontend interfaces and backend APIs for **MQTT** user authentication, topic-based access control, server provisioning, server profiles, and communication management.
- 360 Bytes Tech Venture** 02 2024 - 10 2024
Software Developer Mohali, India
 - Developed and maintained the company's website, contributing to both frontend and backend development using **React.js**, **Node.js**, **Express.js**, and **MongoDB**.
 - Built responsive user interfaces, **RESTful APIs**, and implemented authentication, form validation, and database operations.
 - Contributed to feature development, bug fixing, testing, deployment, and maintenance of production-ready applications.

SKILLS

- Languages:** Java, JavaScript, SQL
- Frontend & Backend:** React.js, Next.js, Recoil, Node.js, Express.js, HTML5, CSS3, Tailwind CSS, REST APIs
- Database & Cloud:** MongoDB, SQL Server, Azure, CI/CD Pipelines, GitHub Actions, Azure Key Vault, Managed Identity, Application Insights
- Tools & Fundamentals:** Git, GitHub, Playwright, Postman, Data Structures & Algorithms, Object-Oriented Programming (OOP)

PROJECTS

- Social Media Backend Project:** 07 2024 - 08 2024
Tools: MongoDB, Express.js, Node.js, REST API, Bcrypt, Postman [Github]
 - Developed a scalable social media backend using **Node.js**, **Express.js**, **MongoDB**, and **RESTful APIs**, with **bcrypt** for secure authentication. Optimized **MongoDB** to handle large-scale data efficiently.
 - Implemented **RESTful APIs**, improving data-fetching speeds by 30%. Utilized **Postman** for API testing and **MongoDB Compass** for monitoring performance and managing user data.
 - Demonstrated proficiency in backend development, database optimization, and API security through practical, real-world experience and application.
- Expense Tracker:** 04 2024 - 05 2024
Tools: MongoDB, Express.js, React.js, Node.js [Live] [Github]
 - Built a full-stack Expense Tracker application using **React.js**, **Node.js**, **Express.js**, and **MongoDB**, implementing **CRUD APIs** for expense management and optimizing database operations for efficient data retrieval.

EDUCATION

- University Institute of Engineering and Technology, Kurukshetra University** 08 2020 - 07 2023
B.Tech - Computer Science Engineering Kurukshetra, India
 - Percentage: 78.1%
